The South Carolina Tuition Grants Program's Mission is:

- 1. To help offset the higher education costs of attending SC independent colleges for South Carolina students just as the state offsets the higher education costs of our state residents attending SC public colleges; and,**
- 2. To gain maximum usage of the available independent college facilities located in our state by assisting eligible students to afford the cost of the independent colleges and thereby help in the education of our state citizenry; and,**
- 3. To preserve the dual system of public and private higher education in our state which provides healthy competition between the two sectors; and,**
- 4. To save the state tax dollars that would have to be appropriated via the automatic state per student subsidy that would go, regardless of financial need, to all independent college students if they migrated into the SC public college system; and,**
- 5. To give eligible South Carolina students a choice of attending the college that best meets their academic needs.**
